Tophat™ I/O Board

Reliance Motor Controller

RTE is recognized as a world leader in the repair and refurbishment of electronic controls. Formed in 1981, RTE was the first company to offer remanufacturing services for the mobile refrigeration industry. Since our beginning, RTE has continued to invest in methods to continually improve our service and product offering. All of our remanufactured products are serviced by our highly qualified technicians, specialized test equipment, and monitored by SPC to ensure that our customers receive the highest quality product. Additionally, RTE has a full engineering staff to assist you with any questions or ideas you may have.

Tophat™ Controller
